Applied AI Engineer with 2 years of experience across operations, venture capital and startups, specialised in building internal software that generates revenue for clients, from process mapping to production deployment.

PROFESSIONAL EXPERIENCE

Jun 26 - Present	HASSCORP Freelance Applied AI Engineer - Delivered AI tools and automations for 5 clients to date (1 VC fund, 3 startups, 1 construction company), from process mapping to production deployment - Developing a go-to-market tool for a VC fund to get its healthtech companies selling to US hospitals - Shipped white-label software embedded in startup and construction clients, opening new revenue streams sold under their own brand	Paris
Jan 26 - Jul 26	NEWFUND French & US Venture Capital Fund Forward Deployed Engineer - Developed Eurheka, an AI tool aggregating and structuring multi-source scientific and patent data into actionable insights for deeptech due diligence (+10 regular users in 2 months) - Built the tech backbone of a new secondaries fund launch: a sourcing platform connecting LP-stake sellers to the fund, and an in-house CRM - Trained 3 portfolio startup CEOs on AI, enabling them to ship 10+ automations in their operations	Paris
Jun 25 - Dec 25	SORARE Scale-up Operations Intern - Automated the annual player card creation process using Python & Google Apps Script, saving the operations team 5+ working days during peak season - Supported the launch strategy of Sorare's new platform managing the allocation of match tickets from league and club partners - Built an internal AI-powered Slack agent (JavaScript) centralising company team data for instant access	Paris
Mar 24 - Aug 24	FONDATION PROSPECTIVE & INNOVATION Think Tank Project Manager - Organised the two largest annual forums (400+ attendees, including ministers and CEOs), enhancing the foundation's visibility and securing 9 new sponsors - Secured a new partnership with HEC Africa, bringing high-profile speakers to the foundation's events	Paris

EDUCATION

2023 - 2027	ESCP BUSINESS SCHOOL Master in Management Core courses : Strategy, Corporate finance, Statistics, Python, Excel	Paris, Madrid
2023 - 2025	UNIVERSITÉ PARIS 1 PANTHÉON SORBONNE Bachelor in Law - double degree with ESCP Specialisation in Private Law - dual-degree track spanning the first two years at ESCP, studied in parallel with the MiM curriculum	Paris
2021 - 2023	LYCÉE MARCELIN BERTHELOT Preparatory classes for French Grandes Ecoles - Economics and Business (ECG) Specialisations : Mathematics & Computer Science, Geopolitics	Saint-Maur des Fossés
